

TECHNICAL DATA SHEET

Engine cleaner

Art. no. 0890 23

P. Qty.: 1 / 12

Powerful cleaner for engines, gearboxes, machines, chassis and bodywork

- Quickly and easily removes oil, grease, tar and other soiling
- Gentle on materials
- Separates easily

Contents	0.3 l
Container	Aerosol can
Smell/fragrance	Characteristic
Colour	Colourless
Chemical basis	Mineral oil
Density/conditions	0.72 g/cm ³ /at 20° C
Shelf life from production	24 Month
Bio-degradable	Yes
AOX-free	Yes

Application area

Engines, gearboxes, chassis, bodywork, machinery, workshop floors etc.

Application information

Thoroughly spray the parts from a distance of 20-40 cm, allow to soak in for 10 minutes and rinse off the dissolved dirt with a concentrated water jet (high-pressure cleaner).

Notice

The ignition system must be covered with suitable equipment in order to prevent starting difficulties after washing the engine. For effective cleaning performance, we recommend using a hot-water high-pressure cleaner. The cleaning performance during manual application is actively supported by the use of hot water.

The usage instructions are recommendations based on the tests we have conducted and are based on our experience; carry out your own tests before each application. We do not assume any liability for a specific application result due to the large number of applications and storage and processing conditions. Insofar as our free customer service provides technical information or acts as an advisory service, no responsibility is assumed by this service except where the advice or information given falls within the scope of our specified, contractually agreed service or the advisor was acting deliberately. We guarantee consistent quality of our products. We reserve the right to make technical changes and further develop products.
